Jaid Sutar

Pune District, Maharashtra, India / Phone: +91-8956063127 / sutarjaid66@gmail.com / LinkedIn / GitHub

Professional Summary

Frontend Developer specializing in **React.js and modern JavaScript (ES6+)**, with hands-on experience building responsive, scalable, and performance-optimized web applications. Skilled in component-based architecture, state management, REST API integration, and dynamic UI development. Passionate about clean code, reusable UI patterns, and delivering seamless user experiences.

Technical Skills

Programming Languages: JavaScript (ES6+), Python

Frontend: React.js, React Router, HTML5, CSS3, Ant Design, GSAP

Backend: API Integration & Backend Collaboration: Django APIs, RESTful Services

Tools & Technologies: Git, GitHub, Postman, VS Code

Database: MySQL, SQLite

Projects

Leave Management System

React.js, Ant Design, RESTful Services, Local Storage (Browser Storage)

- Architected a multi-role leave tracking platform supporting Admin, Manager, and Employee workflows with secure access policies..
- Incorporated RESTful services and local data handling to ensure seamless leave tracking and reduced manual processing effort.

Employee Salary Management System

React.js, PDF Generation, Dynamic Theming

- Designed a payroll dashboard with structured salary records and automated reporting features.
- Created exportable PDF salary slips, cutting manual documentation effort by 60%.
- Introduced theme-switching architecture to enhance usability and interface flexibility.
- Streamlined salary calculation logic to accelerate administrative workflows by 25%.

Animated Landing Page

React.js, GSAP, Responsive Web Design

- Crafted high-performance animated UI sections with smooth transitions and micro-interactions.
- Applied responsive layout strategies ensuring compatibility across desktop and mobile devices.

Education

B.Tech in Computer Science and Engineering
PVPIT | 2021 – 2025

Experience

Teople Technologies — Pune, Maharashtra, India
Frontend Developer — January 2025 – Present

- Led the development and deployment of 2 production-ready React.js applications, streamlining internal operations and improving workflow efficiency by 30%.
- Integrated 10+ REST API endpoints into React applications for dynamic data rendering.
- Optimized component architecture and state management, reducing page load time by 25%.
- Collaborated with backend team to implement authentication and role-based access control for 3 user roles.

Certifications

- **Java Full Stack Development Certification** – PVPIT (College Program)

Achievements

- Contributed to internal digital transformation initiatives through successful production deployments.

Soft Skills

- Problem Solving, Team Collaboration, Communication, Time Management, Attention to Detail
